# PROBLEM STATEMENT

Traditional resumes are static documents (PDF/ Word) that limit interactivity and creativity. Recruiters often find it difficult to quickly evaluate skills and projects from plain text-based resumes. Lack of a centralized, accessible, and visually appealing platform to showcase an individual's skills, education, and achievements. Need for a simple, formal, and professional digital portfolio that is easy to navigate and highlights core competencies effectively using front-end development technologies.

# PROJECT OVERVIEW

The project focuses on creating a simple and formal digital resume portfolio using front-end development technologies such as HTML, CSS, and JavaScript. Unlike traditional resumes, this portfolio provides an interactive and visually appealing platform to present an individual's skills, education, projects, and achievements in a structured way. With a clean and responsive design, the portfolio ensures accessibility across devices like desktops, tablets, and mobiles. The main objective is to offer recruiters and employers an easy-to-navigate, professional platform that enhances visibility and increases career opportunities.

# WHO ARE THE END USERS?

Job Seekers & Students – To showcase resumes, skills, and projects online.

Recruiters &

Hiring Managers – To easily evaluate candidate profiles.

Freelancers & Professionals – To present work portfolios to clients and peers.

# TOOLS AND TECHNIQUES

TOOLS AND TECHNIQUES

Front-end:  
HTML, CSS, JavaScript. Version  
Control: GitHub Design Tools:  
Canva (for layout design)

# POTFOLIO DESIGN AND LAYOUT

Homepage : Clean introduction with name, designation, and a short tagline.

About Section : Personal details, education, and career goals.

Skills Section : Highlight technical and soft skills with simple visuals.

Contact Section : Email, phone, and social media links.

# FEATURES AND FUNCTIONALITY

Responsive Design – Works smoothly on desktop, tablet, and mobile devices.

Interactive Navigation – Easy access to different sections like About, Skills, and Projects.

Skill Highlights – Visual representation of technical and soft skills.

Project Showcase – Detailed display of projects

# RESULTS AND SCREENSHOTS
